

smart stall
x
herringbone system

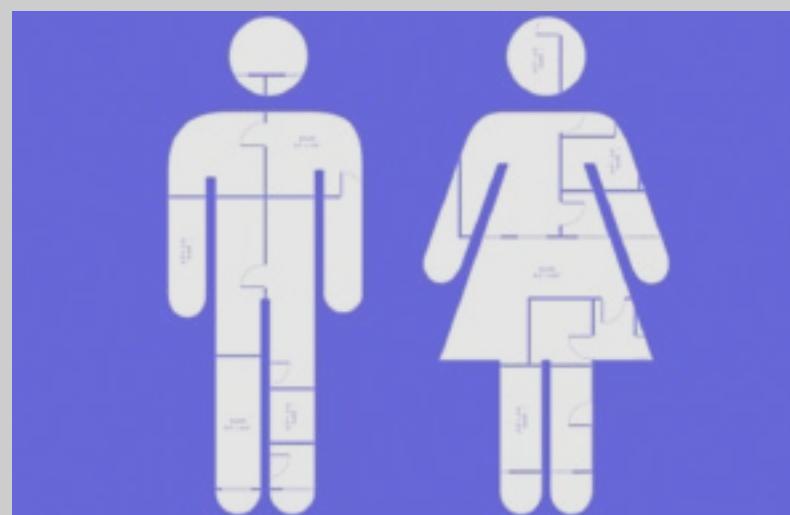

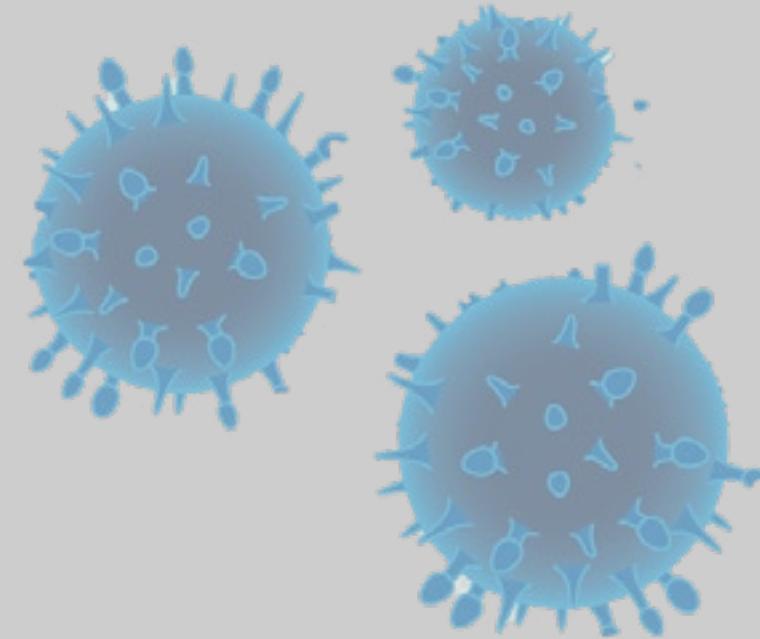

Dustin McDermott - 3rd year - Industrial Design - Dr. Elcioglu

SLOAN.

the problem.

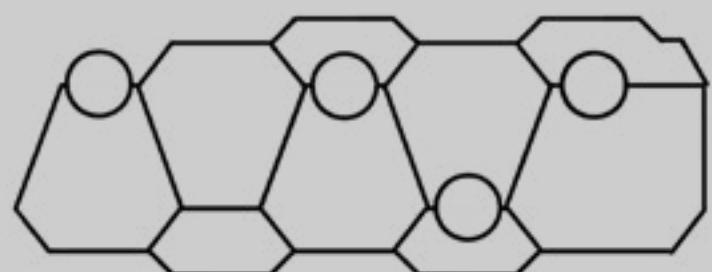

public bathrooms..

- are unsanitary
- lack privacy
- unefficient
- gender exclusive

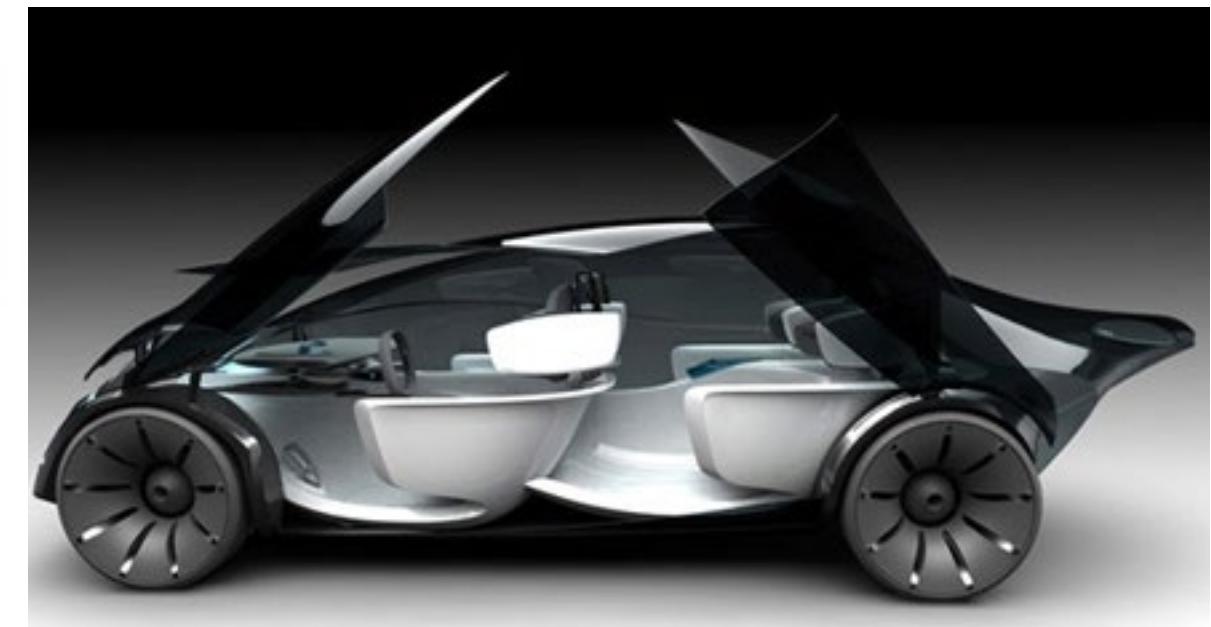

the solution.

- create an environment that gives everyone the privacy they want.
- use UVC light to sanitize bathrooms throughout the day
- design a system that makes bathrooms more efficient
- move closer to a touchless bathroom.
